- On 4 September 1952, the DDR State Planning Commission decreed that so-called "reconstruction plans" are to be worked out for all people's-owned plants, whether they are subordinate to a VVB or directly under a main administration. They are to be long range plans establishing the technological and economic development of individual plants from 1951 to 1955 and later. Each plan is to cover the following subjects for an individual plant: production achievements, development, capacity, material, personnel, cultural and social progress and finance.
2. Completed reconstruction plans of the various plants are to be in the hands of the appropriate main administration or VVB by 15 October 1952. By 15 November 1952, the plans are to be approved and returned to the plants. Thereafter, the plants will be obliged to conform to the approved schedules.
